Digital Earth Africa works to improve the lives of people across the African continent by translating Earth observations into insights that will support sustainable water management, agricultural practice, food security and urbanisation.

**Our work has impact**

**Countries are empowered**, with Earth observation data about land, water resources, and human settlements enabling them to make evidence-based policy decisions.

**Lives are improved**, through access to information that empowers governments, individuals and communities to make informed choices.

**Development activities are more effective**, through access to information that provides insights to better understand the root cause of issues and develop impactful solutions. Continental assessments, reporting, and responses are advanced through access to continental scale data, decision ready products, and analysis ready services.

**Digital transformation is advanced** through industry uptake and innovation using products and services from Digital Earth Africa.

**Increased economic development and job creation** through access to data for commercial products and services development.

**Over $2bn of benefits to the African continent** are possible through accelerated industry growth, improvements in agricultural productivity and the detection and prevention of unregulated mining.

**We support sustainable development**

**UN Sustainable Development Goals**

- **Goal 2** Zero hunger
- **Goal 6** Clean water and sanitation
- **Goal 9** Industry, innovation and infrastructure
- **Goal 11** Sustainable cities and communities
- **Goal 13** Climate action
- **Goal 14** Life below water
- **Goal 15** Life on land
- **Goal 7** Affordable and clean energy
- **Goal 10** Reduced inequalities
- **Goal 12** Responsible consumption and production
- **Goal 8** Decent work and economic growth
- **Goal 3** Good health and well-being
- **Goal 16** Peace and justice, strong institutions
- **Goal 17** Partnership for the goals

**African Union’s Agenda 2063 Framework**

- **Goal 1** A high standard of living, quality of life, and wellbeing for all citizens.
- **Goal 5** Modern agriculture for increased productivity and production.
- **Goal 6** Blue/ocean economy for accelerated economic growth.
- **Goal 7** Environmentally sustainable and climate resilient economies and communities.

**We are built on partnerships to create sustained capability development in Africa**

Digital Earth Africa is an operational and analytic capability for the entire continent of Africa, with African governance and in-country expertise in data analysis, use and management.

Digital Earth Africa continues to work with the African and international community to ensure that Earth observation data is analysis ready, rapidly available and readily accessible to meet the needs of our users.
